26th February 2020

Dear Parent/Carer,

Science Ambassador Training

Your child has been chosen to take part in Science Ambassador Training at Wheatley Hill Community Primary School on Friday 28th February. Science Ambassadors are children in school who have shown a real interest and love of science. This training will give them excellent ideas for experiments they can share with their classmates and explain what it is to be a Science Ambassador. They will also have an opportunity to share their science knowledge with other children and to learn from them as well.

The children will go on the training during the normal school day and will return to school for the end of the school day. Please ensure children attend school in their full school uniform. Children will need to bring a packed lunch with them and a water bottle as they will be having their lunch during their training.

If you have any questions about the Science Ambassador Training, please do not hesitate to ask.

Regards

Miss Macdonald
Science Lead
