

Geography

Choose one of the continents of the world and identify the key physical features such as mountain ranges, climate and rivers.

Using information from <https://www.kids-world-travel-guide.com/solar-system.html> and <https://www.bbc.co.uk/bitesize/topics/zdrrd2p/articles/ztsdj6f>

Compare the physical features of your continent with one of the rocky planets. Present what you have discovered in a chart.

Science

Follow the [link](#) to complete the lesson about solar and lunar eclipses.

Watch the video clip and then complete the activities to go with it.

Music

Listen and appraise the piece classical music Planets by Gustav Holst

[Holst The Planets](#)

Reading

Access Reading Plus [readingplus](#)

Complete 30 minutes of reading each day. Work your way through your weekly assignments.

History

After the Second World War, The USA and USSR competed with each other to prove that they were the most powerful nation on Earth. As part of this, both nations tried to show that they had the best technology and science by racing to put people in to space. Research key dates and events of the space race. Create the text for an information book / web page about the space race. You could create a timeline to show key events.
